The Amusement and Family Entertainment Industry is collectively working towards making the experience grander and better for their patrons. TouchMagix, a manufacturer of new-age redemption games, has come up with massive hardware and design upgrades to its much loved title, SpaceWarp 66.

"With industry operations gaining momentum, we feel that the time is apt for the SpaceWarp 66 experience to become bigger and better. The latest cabinet designs are expected to grab eyeballs", said Jayesh Kariya, CEO of TouchMagix.

A brand new, massive 65-inch screen size
